- Dividends are compounded daily and paid to accounts monthly using the daily balance method, which applies a daily periodic rate to the balance in the account each day. The dividend period is monthly beginning on the first calendar day of the month and ending on the last calendar day of the month. Dividends will be posted to accounts on the last day of the month for the current month.
- Accounts closed prior to the end of the dividend period will not earn a dividend for any part of the month in which they are closed.
